

Goals & Pledge **Worksheet**

This is the engine room of your business plan. You set the income and savings you're aiming at, then work backwards — step by step — to the FYC, the cases, and the weekly activity that actually get you there. Watch both tutorial videos on the assignment page first, then fill this in. The numbers don't have to be perfect on the first pass; the point is to see what your goal asks of you each week.

1 Where you want to land

Start at the destination — the life, not the activity.

Income I want per month (in 5 years)	
Assets / savings I want accumulated by then	
Annual income that implies (monthly × 12 + bonus)	

▼ work backwards

2 FYC & club target

Convert the income you want into the First-Year Commission you must write, and the club / award tier that sits at that level.

Annual income target ÷ your average income-to-FYC ratio = **FYC you must write this year**. Ask your leader for the current ratio and the club / MDRT-COT-TOT thresholds.

FYC I need to write this year	
Club tier / award this puts me in	
Stretch tier I'd be proud of (MDRT / COT / TOT)	

3 Cases & clients

Turn FYC into the number of cases and clients behind it.

FYC target ÷ average FYC per case = **cases per year**. Cases ÷ cases per client = clients per year. Then divide by 12 for the monthly pace.

PER YEAR	TARGET	PER MONTH	TARGET
Avg FYC per case		Cases per month	
Cases per year		New clients per month	
Clients per year		FYC per month	

4 Weekly activity — your pledge

This is the number you actually control. Everything above is a result; this is the input. Work it down to appointments and calls per week, using your own conversion ratios.

Cases per month ÷ closing ratio = appointments needed. Appointments ÷ appointment-setting ratio = calls / contacts needed. Divide by ~4 for the weekly pace.

MY WEEKLY PLEDGE	HOW MANY	MY CONVERSION RATIO
New contacts / calls per week		
Appointments held per week		
Fact-finds / presentations per week		
Cases closed per week		

My pledge

Knowing what my goal asks of me, I pledge to hold _____ appointments and make _____ new contacts every week.

Signed: _____ Date: _____

Ask your leader for current FYC ratios, club / MDRT-COT-TOT thresholds, the EPS scheme and new-recruit incentives — the activity overview board linked on the assignment page maps all of these.
